3.6 RISK DISCLOSURE

Trading contains substantial risk and is not for every investor. An investor could potentially lose all or more than the initial investment. Risk capital is money that can be lost without jeopardizing one's financial security or lifestyle. Only risk capital should be used for trading and only those with sufficient risk capital should consider trading. Past performance is not necessarily indicative of future results.

3.7 HYPOTHETICAL PERFORMANCE DISCLOSURE

Hypothetical performance results have many inherent limitations, some of which are described below. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown; in fact, there are frequently sharp differences between hypothetical performance results and the actual results subsequently achieved by any particular trading program. One of the limitations of hypothetical performance results is that they are generally prepared with the benefit of hindsight. In addition, hypothetical trading does not involve financial risk, and no hypothetical trading record can completely account for the impact of financial risk of actual trading. For example, the ability to withstand losses or to adhere to a particular trading program in spite of trading losses are material points which can also adversely affect actual trading results. There are numerous other factors related to the markets in general or to the implementation of any specific trading program which cannot be fully accounted for in the preparation of hypothetical performance results and all of which can adversely affect trading results.

3.7 SECURITY

You may not share your user account login or password with anyone. You may not create more than one account. Violating either of these terms will result in the permanent deactivation of all access to services. If you believe either of these has happened, please notify us via a help desk ticket immediately. We will change your login and password and will disable the duplicate account.

3.8 MARKETING

We do not share your contact information with third parties for marketing purposes. By participating, you consent to receive text messages sent by an automatic telephone dialing system from Company. By participating, you consent to receive phone messages sent by an automatic telephone dialing system from Company. By participating, you consent to receive email messages sent by an automatic response/record system from Company. Consent to this is a condition of purchase.

All warranties of any kind, express or implied, including but not limited to the implied warranties of merchantability, fitness for a particular purpose, freedom from contamination by computer viruses, and non-infringement of proprietary rights, are disclaimed by Legends Trading Group. Legends Trading Group, hereinafter referred to as COMPANY and all of its services are purely for educational purposes. Other tools provided are available for analysis and education. COMPANY adamantly states that nothing in any of its software, tools, websites, webinars and other communication methods constitutes a solicitation, promotion, endorsement, offer, or recommendation to buy or sell any investment vehicle. Neither COMPANY, its owners and operators, its subsidiaries, officers, employees, representatives, nor independent contractors are acting as licensed financial advisors. COMPANY is acting SOLELY as an education firm providing research tools and any trading done is for the sole and explicit purpose of illustrating the mechanics of a trade as an example for purely educational purposes. We provide strategies and education materials showing you ways to use the scanners and information which can teach you about trading, how to possibly limit risk and make profits from trading. Your trades may lose the maximum loss. There is no assurance you will make profit or limits if risk is less than the maximum risk on said product. COMPANY does not determine whether any strategy, trading instrument, swap, or contract of any type is suitable for any individual. Exchange fees may vary by instrument and may or may not be included in the calculation of education, scanner tools and examples. Transaction trading fees may vary depending on the size of the transaction you perform from what is displayed in education, scanner tools, and education. Education examples of strategies, trade examples, and hypothetical trades do not represent liquidity, exchange fees, commissions, interest, dividends, spreads, or other expenses and have the benefit of hindsight. These factors affect whether an investment is profitable. Any quotes made available may be delayed or may become unavailable due to technology difficulties. 3.10 INDEMNIFICATION

You agree to indemnify, defend and hold COMPANY, its Affiliates and their respective officers, directors, employees and agents harmless from and against any and all claims, liabilities, damages, losses, costs, expenses, fees (including reasonable attorneys' fees), or arising out of or related to your (or any users of your account's) violation of the terms of service or use of COMPANY products and services (including without limitation, your submission of content that violates third party rights or applicable laws). COMPANY reserves the right to assume the exclusive defense and control of any matter otherwise subject to indemnification by you. You will cooperate as fully as reasonably required in the defense of any claim. COMPANY may, at its own expense, assume the exclusive defense and control of any matter subject to indemnification by you. You may not settle any matter without the written consent of COMPANY.

No representation is being made that any account will or is likely to achieve profits or losses similar to those shown.
